

DW-5K

Industrial Wireless Keyboard

The DW-5K is a sealed, RF wireless keyboard with an integrated HulaPoint™ pointing device.

The DW-5K boasts a 30-foot RF range, while operating in continuous power conservation mode for a 6-month average battery life. Because the DW-5K uses radio frequency signals, it is not susceptible to the line-of-sight issues associated with infrared keyboards.

The DW-5K utilizes a USB dongle for plug and play ease, including automatic keyboard detection by the host computer. In addition, the DW-5K comes with a manual binding feature that locks in the keyboard's signal, providing keystroke security, the ability to operate multiple wireless keyboards within the same environment and a
