

iKey's Introduces High-Bright Touchscreen Displays for Mobile Mounting Solutions

iKey, the world leader in rugged computer peripherals, is proud to introduce a new line of high-bright touchscreen displays with the IK-FPMT-12-1000 and IK-FPMT-15-1500. Designed with LED backlighting, powder coated steel housings and sleek rubber protective bezels, the 12.1-inch IK-FPMT-12-1000 and 15-inch IK-FPMT-15-1500 offer users an ultra-rugged, daylight-readable, high-resolution display engineered for in-vehicle use.

Austin, TX ([PRWEB](#)) January 18, 2012 -- iKey, the world leader in rugged computer peripherals, is proud to introduce a new line of high-bright touchscreen displays with the [IK-FPMT-12-1000](#) and [IK-FPMT-15-1500](#). Designed with LED backlighting, powder coated steel housings and sleek rubber protective bezels, the 12.1-inch IK-FPMT-12-1000 and 15-inch IK-FPMT-15-1500 offer users an ultra-rugged, daylight-readable, high-resolution display engineered for in-vehicle use.

The new high-bright line will be featured and available for demonstrations at Distributech 2012, January 24-26 in San Antonio, TX at iKey's booth #4356, and at Fleet Forum 2012, Feb. 8-10 in Bonita Springs, FL at iKey's booth.

“The new line of displays addresses our customers’ need for a [fully-ruggedized touchscreen display](#) for mobile applications that performs well in brightly lit environments,” said iKey’s controller Jim Mayo. “Paired with our ultra thin [SB-87-TP](#), the IK-FPMT-12-1000 and IK-FPMT-15-1500 are a great start to a three piece in vehicle solution.”

The IK-FPMT-12-1000 features 1000-nits of brightness and includes a capacitive touchscreen, while the IK-FPMT-15-1500 offers 1500 nits of brightness with a resistive touchscreen. Both touchscreen displays utilize a custom OSD that makes brightness adjustments as simple as pressing a button. Featuring 10 levels of backlighting, the displays can be easily adjusted to ambient light requirements. A NEMA 4X sealed front panel and conformal coating of internal components provides significant protection from moisture and vibration.

The IK-FPMT-12-1000 and IK-FPMT-15-1500 are ideal for mobile, public safety, transportation, and utilities applications. For more information on this product, visit iKey online at www.iKey.com.

About iKey, LP.: iKey designs and manufactures rugged, [sealed keyboards](#), displays, pointing devices for industrial, public safety, medical and military applications. A pioneer in its industry since 1989, iKey is known as an innovator of industrial computer peripherals. For more information, visit www.ikey.com.
